

GUJARAT UNIVERSITY - MID TERM EXAM 2026

Subject: Computer Science & Operating Systems | Max Marks: 20

STUDENT SUPPLEMENTARY SHEET (Roll No: 101 - Rahul Sharma)

Answer 1:

RAM is Volatile memory, meaning when the power is turned off, all contents are erased. It supports both read and write operations and stores currently running programs.

ROM is Non-Volatile permanent memory where startup firmware like BIOS is stored. It cannot be easily overwritten.

Answer 3 (Continued on Page 2):

Operating System acts as an intermediary between user and hardware.

1. Process Management: Handles creation, termination, and CPU scheduling of jobs.
2. Memory Management: Tracks memory addresses and allocates RAM space to software.

GUJARAT UNIVERSITY - MID TERM EXAM 2026

Subject: Computer Science & Operating Systems | Max Marks: 20

Roll No: 101 - Supplementary Page 2

Answer 3 (Continued):

3. File System: Provides structured directories, files, permissions, and storage retrieval.
4. Device Management: I/O controllers, drivers, buffering, and peripherals security.

Answer 2 (Out of Order):

CPU components include:

1. Arithmetic Logic Unit (ALU)
2. Control Unit (CU)
3. Internal CPU Registers
